## RAINFOREST WORKSHEET

Third Level

A: Emergent Layer

A: Canopy Layer

A: Understory Layer

A: Forest Floor

Using the diagram above place each of the following animals in the correct layer. Remember that these animals move about so may be found in many different layers. There is often no one correct answer but think about where they spend most of their time and be able to explain your choice

Fruit bat

Toco Toucan

Cricket

Red Eyed Tree Frog

Jaguar

Spectacled Caiman

Blue Morpho Butterfly

Black Tailed Marmoset
